Mark, I understand, you had mentioned this to me earlier. Please call me about resource needs so I can run them by REOC. There are a lot of changes going on.

Subject: M6H1 – Harvey Response: Transfer of Andy to Bravo Branch and Amy Camacho lead on Dallas Phone Ops
Importance: High

Kim,

We really need Andy here, so I am hopeful y'all are working on orders to move him here as well as arranging for his lodging (or have him find his own near us)

I also really want Amy to lead the Dallas phone ops. I trust her based on the job she did in Austin. It is critical that the prescriptive measure I outlined in my request (via TCEQ) are followed without fail. She would be good for the Community Outreach, but it is easier to find folks for that than there is for our phone ops.

Thanks,
